

# SUSTAINABILITY POLICY

## Statement of intent

This document serves as a comprehensive policy framework setting out the principles for other ACCIONA Energía sustainability policies.

ACCIONA Energía's commitment to sustainability focuses on social progress, environmental balance and economic growth.

As a global company, ACCIONA Energía strives to respond to the main challenges facing society by providing renewable energy. With sustainable development as the focal point of its businesses, the organisation is capable of generating long-term shared value for its different stakeholders.

ACCIONA Energía follows the 10 principles of the United Nations Global Compact on human rights, labour, the environment, and anti-corruption.

ACCIONA Energía's commitment to sustainability is also reflected in its contribution to meeting the 17 United Nations Sustainable Development Goals.

## Principles

- **Agent of change** - Through its sustainability strategy, ACCIONA Energía responds to the global challenges and trends that affect its businesses by providing solutions to the main needs of society.
  - **Long term** - ACCIONA Energía understands that sustainability is a long-term commitment that reinforces the principle of economic and financial stability.
  - **Ethics** - ACCIONA Energía requires that all of its relationships with third parties be conducted with ethical behaviour, honesty, integrity and transparency.
  - **Governance** - ACCIONA Energía's efforts in sustainability are driven and spearheaded by the company's top-level management.
  - **Integration of sustainability** - ACCIONA Energía understands that sustainability must be present in all areas of the business and on every organisational level of the company, all the while transmitting this culture to customers, suppliers, partners, and other stakeholders.
  - **Culture of risk and opportunity management** – ACCIONA Energía encourages the inclusion of results from risk and opportunity analyses and assessments when drawing up strategies and making decisions.
  - **Respect for fundamental human rights** – ACCIONA Energía respects and contributes to the protection of internationally recognised fundamental human rights making sure it is not complicit in any kind of abuse or violation of those rights.
-

## SUSTAINABILITY POLICY

- **Creating value for society** – ACCIONA Energía strives to bring value to the geographical areas where it operates by developing business models that contribute to local social development and improve people’s quality of life.
  - **Caring for the environment** – ACCIONA Energía takes a preventive approach to reduce the impact of its operations, seeking the highest level of environmental efficiency in all the projects it undertakes.
  - **Fighting climate change** – The fight against climate change is a strategic priority for ACCIONA Energía, generating renewable energy, promoting energy efficiency, mitigating the adverse effects of climate change, and offering coping mechanisms.
  - **Innovation** – ACCIONA Energía fosters innovation as one of the pillars of business development, promoting the search for sustainable solutions at a technological and operational level.
  - **Dialogue with stakeholders** – Communication and dialogue are the foundation of ACCIONA Energía’s relationship with its stakeholders in order to know their needs and meet their expectations.
  - **Transparent communication and accountability** – ACCIONA Energía provides its stakeholders with information that is transparent, truthful and accurate.
